MEMORANDUM FOR THE RECORD

SUBJECT : Ionosphere Sporadic E Mode of Transmission

REFERENCE : Letter to NSA on 6/12/63 (CM-0584/63)

25X1A

1. Called [ ] at NSA this date to determine status of our request.
2. Their equipment branch has been alerted so that, hopefully, the necessary station modification can be considered and incorporated into their instrumentation.
3. It is not likely that their operation will coincide with the ACF tests because of expected delays in getting priorities and personnel ready in time.
4. He is following the letter to make sure that it is not delayed further in reaching the priority establishing group.
